

AGRA-SH SD/20

Fitting with rubber beads

APPLICATION

Used in all those applications in which the food (liquid or solid) must absolutely not come into contact with the metal surfaces of the fittings. Furthermore, with this structure, the usual accumulation of material that forms at the end of fittings tail end of common food hoses equipped with crimped fittings, is completely eliminated

TUBE

White, smooth in **EPDM** rubber, food quality, odorless and tasteless. The numerous compact rubber layers also form the front seal of the flanges

REINFORCEMENT

High strength synthetic plies, with incorporated metal spirals

COVER

Blue, corrugated, cloth impression, in **EPDM** rubber, resistant to abrasion, ozone and weathering

SPECIFICATIONS

FDA title 21 art.177.2600 (e) for liquid foods, BfR, ADI free, CE 1935/2004, PHTHALATE FREE

FITTINGS

The connection, exclusively flange, is in rubber/metal: the sealing surface of the flange is entirely in rubber, strengthened by a metal ring; the external rotating flange is metallic. Materials and specifications on customer request

BRANDING
